## Career Objective

---

Full-stack Developer skilled in React, Node.js, Express, and MongoDB, with strong knowledge of databases, DSA, and system design fundamentals. Eager to build secure, scalable, and user-focused applications.

## Skills

---

**Front End:** HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, DaisyUI, React.js

**Back End:** Node.js, Express.js, MongoDB, SQL, RESTful APIs, JWT Authentication, Middleware, Deployment

**Other:** Git & GitHub, DSA, System Design Basics, Cloudinary, ImageKit, Toastify, CORS

## Personal Projects

---

### Car Rental App

[Live Link](#) , [Source Code](#)

Technology: MERN Stack, Tailwind CSS, RESTful APIs, JWT Authentication

Description: A full-stack car rental platform enabling users to browse and book cars while admins manage listings and bookings securely.

- Built CRUD APIs for car listings and bookings using Node.js, Express, and MongoDB.
- Implemented JWT authentication & role-based access for admins and users.
- Integrated responsive UI using React and Tailwind CSS for seamless user experience.

### EcoMart

[Live Link](#) , [Source Code](#)

Technology: MERN Stack , Tailwind CSS, JWT Authentication, RESTful APIs

Description: A full-stack grocery shopping platform with secure authentication, role-based access, and a smooth shopping experience. Users can manage carts and orders, while admins control products and inventory.

- Implemented JWT authentication & authorization with role-based access.
- Built CRUD APIs for products and orders using MongoDB + Express.js.
- Developed a responsive UI with React.js and Tailwind CSS.

### BlogStudio-AI

[Live Link](#) , [Source Code](#)

Technology: MERN Stack, JWT, ImageKit, Google Gemini API, RESTful APIs, Tailwind CSS

Description: A modern full-stack blogging platform that integrates AI-powered content creation with secure admin management and optimized image handling. Designed to help users write blogs faster, manage content seamlessly, and deliver a responsive reading experience.

- Built a full-stack blogging platform with AI-assisted content creation using Google Gemini API.
- Added comment system with admin moderation to foster community interaction.
- Implemented JWT-based authentication for secure admin access and content management..

## Education

---

**Northern University Bangladesh**

*B.sc in Computer Science and Engineering*

Dhaka, Bangladesh

September 2023 – Present
